Design Features:

- ◆ Body is one piece construction with flanged heads.
- ◆ All joints are of lap welded construction for added strength.
- ◆ Design incorporates both Underwriter's Laboratory of Canada and most local standards.
- ◆ Tanks are coated with an aluminum finish. Other coatings available.
- ◆ Pipe legs, fill cap, vent cap, level gauge, saddles and bands for seismic applications are optional. Other fitting configurations available.
- ◆ Rupture basins for containment are optional.
- ◆ U.L.C. Labeled tanks (CAN/ULC-S602-03).
- ◆ Each tank is air tested prior to leaving our manufacturing plant.

Capacity Dimensions Standard Tank Fittings
